I am writing to express my sincere and continued appreciation for the folks at USWC and their efforts in helping the Sheehan Autoplex become the great success story it is today.

Hard to believe we have been working with USWC for over 30 years! It's certainly a testament to the innovative products, outstanding training programs and responsive service. A more than competitive warranty program – which includes road hazard and pre-paid maintenance - allows us to make top-flight CSI a real and attainable goal while the ability to control our profitability helps to shield us from the down-slides in a bad economy.

As a high volume and long standing family-owned dealership in the Southeast United States Region, we are solicited by dozens of companies each year. None have been able to compete with what we already have with USWC...the peace of mind that comes from the knowledge that our company, F&I department and staff are in competent and caring hands.

Thanks again for your help over the past three decades and here's to many more!

Regards,
